

IT'S NOT JUST PART OF THE TURF.

IT'S PART OF THE GAME.™

Envirofill is the infill of choice on the new FIFA 2-Star Certified fields of Australian National University. It's cooler, more natural, and non-compacting. And, it's infused with Microban® antimicrobial technology to fight the growth of bacteria, mold, and mildew. But what you'll really respect is its superior endurance.

Sound like a champion you'd want on your field? Call 800-548-0402 or scout usgreentech.com for more information and samples.

The new artificial turf surface with Envirofill exceeds the University's expectations of providing a very competent multi-purpose playing surface while addressing environmental concerns associated with traditional artificial turf. It's odorless, non-toxic and significantly cooler for heat absorption and radiant heat. The Ambition system provides exceptional value when you consider Envirofill can be used for two lifecycles of artificial turf. This also enhances the product's environmental credentials.

-Jeffrey Albrecht, ANU project manager

PRODUCT DATA ENVIROFILL® 12-20			
Physical properties	Measure	Test Method	Value
Dimensions	98.6% Retained 12-20 mesh sieves		
Materials	99.6% Silicon Dioxide, Pigment and Acrylic		
Hardness	Mohs Scale		6-8
Roundness	Krumbein Shape	ISO13503-2/API RP19C	0.7+
Density	lbs/cf	ASTM F-1815-06	110
Flammability		ASTM E648	Non-flammable
Dust			Negligible
Angle of Repose		ASTM C1444	±30 degrees
TCLP Metals Content	mg/kg	ASTM 6010	<Min Detectable Levels
Abrasiveness	Index	ASTM F 1015	26+/-2
Coefficient of Friction	Direct	ASTM F 1551	0.80 dynamic
Packaging	50lb bags or 3000lb Super Sacks		

Envirofill's exclusive partnership with Microban® provides an added level of antimicrobial protection for the lifetime of your playing field.
